The origin of Pühaste Brewery goes back to the year 2011, when Eero Mander, the head brewmaster, made his first craft beers. His test beers, brewed in the summer cottage in Pühaste village, Valga county, earned high grades from his friends. Further brewing as a “gipsy”, brought a lot of good feedback from wider craft beer community from Estonia as well as abroad. Pühaste opened its own brewery in Tartu on 10th of September 2016.
